Lessons Learnt

- **The network with CBO's was widened where DSPR received (15) application from different CBO's (youth clubs , churches, women programs centers, volunteers, clinics) to work closely with DSPR and gain the needed experience in relief work.**
- **The campaign was implemented on high level of accuracy where no deviation was recorded during the whole campaign.**
- **Do No Harm during the campaign especially in this holy month, and the hot weather, where the process of relief parcels distribution was very quick and accurate.**
- **High demands from refugees, where their needs were increased due to lack of resources especially for food. Women who came for help were frustrated due to the decline of support especially for food.**
- **High performance of voluntary teams where they became crucial part of DSPR work and an important link between DSPR and refugees.**
